

Chief Minister Devendra Fadnavis calls at Endress+Hauser's stand

The highest-ranking politician of India's federal state of Maharashtra was impressed by modern measurement and automation engineering

Gaining a good impression of the latest developments in measurement and process technology, Devendra Fadnavis spent almost three quarters of an hour at Endress+Hauser's stand on the opening day of the 2015 Hannover Messe. Matthias Altendorf, CEO of the Endress+Hauser Group, guided the Chief Minister of India's federal state of Maharashtra through the spacious exhibition stand, explaining various instruments and applications.

Exhibiting on a 425 square meter area at the world's biggest industry trade fair, Endress+Hauser is presenting its full product range in process automation. India is the guest country at this year's Hannover trade fair. Devendra Fadnavis heads a delegation from India's state of Maharashtra which also includes Minister of Industry Subhash Desai and other high-ranking government officials. Maharashtra, with its capital Mumbai, is one of the most important industrial centers of the Indian subcontinent.

Endress+Hauser supports customers worldwide in managing industrial processes safely, reliably, eco-friendly and efficiently. Since the 1970s, the specialist for measurement engineering and automation solutions has operated successfully in India. Today, the sales center headquartered in Mumbai employs around 180 people, with as many again working at Endress+Hauser's production facilities in Aurangabad, around 300 kilometers from Mumbai.

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 12,000 personnel across the globe, generating net sales of 2.0 billion euros in 2014.

Structure

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 11 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
